

# STAND.MOVE M1.4

Central interface with  
radio module and  
Cloud connection

# Description

The intelligently networked office is no longer simply a vision. Sit-stand desks from the Serie FREE.STAND series communicate with the web-based DEESK platform via the cloud infrastructure (via WLAN or network).

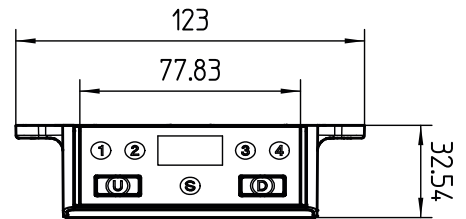

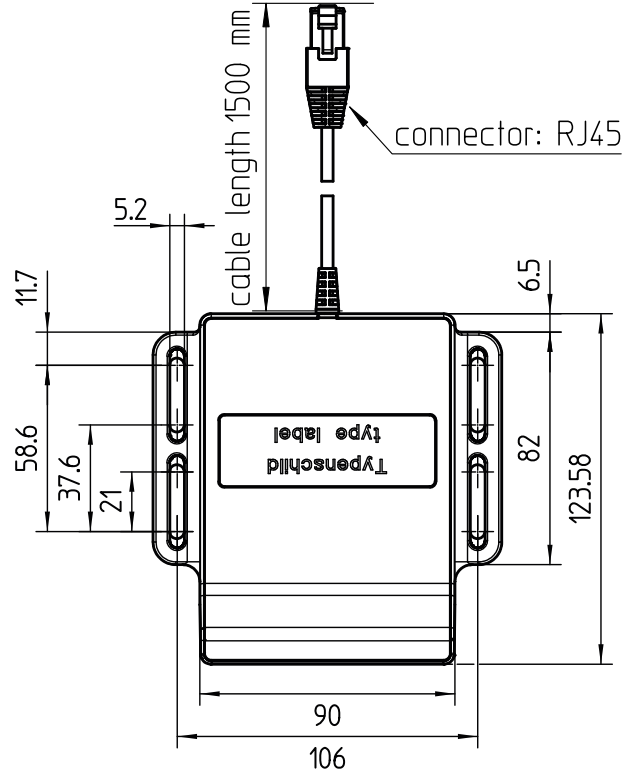

The STAND.MOVE M1.4, a new handswitch including radio module is the central interface at the table frame. It forms the gateway to online applications and to the implementation of the smart office.

- The integrated RFID reader enables „HotDesking“ check-in into the DEESK platform at the workstation.
- RGB LEDs show the booking status in traffic light colors.
- The 128x64px OLED display shows the booking status and the employee’s name in text form.
- The pixel-based display forms the basis for further new functions such as digital logo placement or fitness reminder.

# Technical data

<b>Radio protocols</b>	Bluetooth BLE 4.0, Wi-Fi (2.4 GHz, 802.11b/g/n), RFID (13,56 MHz)
<b>Environment conditions during transport and storage</b>	-25 °C to +70 °C at 5 % to 90 % relative atmospheric humidity (non-condensing), with +38 °C max. dew point; Temperatures from +55 °C to +70 °C only for maximum 24h
<b>Environment conditions in the factory</b>	+5 °C to +40 °C at 10 % to 85 % relative atmospheric humidity (non-condensing), with +27 °C max. dew point;
<b>IP class (protection class as per EN60529)</b>	Unassembled: IP 00 Correctly assembled: IP 20
<b>Rated input voltage</b>	9 - 31 V DC
<b>Maximum power input</b>	approx. 1,2 W

**Dimensions**  
Length 124 mm  
Wide 123 mm  
Height 33 mm

**Radio protocols**  
WLAN,  
Bluetooth,  
RFID

**Display**  
128x64px OLED

**Cable length**  
1,5 m

**Customizing**  
Logo on Control element

**Connections**  
RJ45 plug

**Mounting**  
Screw holes
